SalesGenius | Registration VSL, confirmation video, and 5 breakout clips (Emma on camera)

HOW TO FILM

- Emma on camera, talking head, look down the lens, warm and direct.

- For the registration VSL, screen-record the AI building a real ad to cut in over the 'What You'll Learn' section.
- Autoplay-muted with captions, so the words on screen have to carry it. Keep energy up.

FOR THE EDITORS

- Registration VSL: add chapter markers (Summary, The Problem, What You'll Learn, Why Us, Register).
- Cut in the screen-recording of the AI building an ad during 'What You'll Learn'.
- Confirmation + breakouts: keep them short and personal, no heavy graphics.
- Export 16:9 for the page players (these embed on the site, not the feed).

SUMMARY (first 60 to 90 sec)

If you want to generate your own buyer and seller leads without hiring an agency, and without being techy, this is for you.

I'm Emma Pace. I'm a seven-figure realtor, and I run a marketing agency that runs ad campaigns for agents.

On [DATE], I'm holding a free masterclass where I'll show you exactly how to use AI to build and run your own ad campaign.

The same kind of campaign we run for our clients, now simple enough to do yourself.

It's free. It's live.

And I'm not going to fully replay it, because there's live Q&A at the end, and a few things I'm only giving people who show up.

Here's exactly what you'll walk away able to do.

THE PROBLEM (30 to 60 sec)

You've probably already tried this.

You boosted a post and got a feed full of “nice listing” and zero appointments.

Or you bought leads that got resold to five other agents and never picked up the phone.

Or you opened ad manager, saw four hundred settings, and closed the tab.

The problem was never you.

Running ads used to take real skill. Targeting, copywriting, design.

And that's the part nobody ever taught you.

WHAT YOU'LL LEARN (30 to 60 sec) cut in the screen-recording here

On this masterclass I'll show you four things.

One: how to point an ad at the exact buyers and sellers in your area.

Two: how to get AI to write the offer, the copy, and the image for you, so you don't need to be creative or techy.

Three: how to tell in about thirty seconds whether a campaign is working, and what to change if it's not.

And four: the roughly twenty-minute-a-week routine that keeps your own leads coming in while you're out selling.

WHY US, AND WHY WE'RE TEACHING THIS (20 to 40 sec)

Quick word on why us.

We've built seven-figure real estate businesses, and we run a marketing agency that installs these systems for agents at top brokerages every single day.

This is the exact system we use.

And yes, we're an agency teaching you to do it yourself.

The honest reason: most agents will never hire the full service, and AI finally made the ad-building part something you can do on your own.

If you ever want it all done for you, that's still there. This masterclass is where you start.

REGISTER (15 to 30 sec)

Click the button, put in your name and email, and save your seat for [DATE] at [TIME].

Come live. That's the only way to get the Q&A and the live-only bonus. See you there.

SCRIPT

Hey, it's Emma. You're officially registered for the AI Ads masterclass on [DATE] at [TIME].

Quick thing: on the masterclass I'm going to build a real estate ad with AI, live, in front of you, in a couple of minutes.

The offer, the copy, the image.

Then I'll show you how to run it yourself in about twenty minutes a week.

Over the next few days I'll send you a couple of things I normally only share with our clients, so keep an eye on your inbox.

And do this now: add it to your calendar with the button right below.

See you on [DAY].

Breakout Clips (x5)

30 to 60 sec each • on the confirmation page, label each so viewers jump to what matters

BREAKOUT 1

“Do I need to be tech-savvy?”

No. On the masterclass you'll watch the AI do the technical part.

You point, it builds, you approve.

If you can fill out a form and click a button, you can do this.

BREAKOUT 2

“What if I've never run an ad?”

Perfect. No bad habits to unlearn.

I start you from zero and walk you through it, step by step.

BREAKOUT 3

“How much do I need to spend on ads?”

Less than you think.

I'll show you how to start on a small daily test budget, and exactly how to read it before you spend more.

BREAKOUT 4

“Why AI ads instead of just boosting posts?”

Because boosting gets you cheap likes, not buyers.

AI builds a real campaign that targets the people about to move.

I'll show you the difference, live.

BREAKOUT 5

“Is this instead of an agency?”

This is for the agent who wants to run their own ads.

Our agency is the done-for-you level, application only, for when you want the whole thing handled.

Start here. If you outgrow it, you can apply.
