

TEAM TRAINING & HANDOFF — AI ADS WEBINAR

Everything We Built. Everything You Run.

The complete map of the In-House AI Team launch — positioning, funnel, assets, owners, and what's left before we go live.

From today: Emma sells, teaches, and pitches. This team runs the machine.

JULY 2026 · PREPARED FOR THE TEAM TRAINING MEETING

PART 1

The Offer, in 60 Seconds

If you learn one page of this document, learn this one.

WHAT WE SELL

The 30-Day In-House AI Team Install — in 30 days, we install a client's In-House AI Team: an **AI Executive Assistant** (takes low-dollar work off their plate), an **AI Sales Manager** (lives in their Follow Up Boss/Lofty, tells them who to call and what to do every day), and an **AI Ads Manager** (brings leads in, follows up with every one, custom, 24/7) — so they stop being the assistant in their own business and start closing more deals.

THE NUMBERS

- **\$2,997 USD, one time** + Founder's Bonus: 12 months of the AI Ads tool included
- **10 seats, hard cap** — Founder's Cohort, first round ever
- Anchor: hired as humans, these 3 roles = **~\$150k/year of payroll**
- **Two guarantees:** Week-1 worth-every-penny refund · attend 3 of 4 + homework → we finish the install 1:1
- Qualifier: Follow Up Boss or Lofty · 10–15+ deals/yr · 500+ contacts. Other CRMs → priority waitlist
- Ascension (never mention Weeks 1–2): AI Conversion Pack \$2,000 (main, seeded Wk3, closed Wk4) · Nurture Install \$500 (downsell)

THE ONE RULE

Every word we publish comes from **AI_Team_Foundational_Positioning_Doc.pdf** (in the project folder). Read it before writing ANY customer-facing copy. It contains the avatar, the core narrative, the exact employee job descriptions, the proof map, and the Always-Say / Never-Say table. When positioning changes, that doc changes first — then the assets.

PART 2

The Funnel — Every URL, Start to Finish

Two separate Netlify sites. Webinar funnel gets them to the pitch; the Sprint funnel takes the money and onboards.

Repo: github.com/salesgeniustech/AI-Powered-Webinar

STEP 1 — THE WEBINAR FUNNEL · aiads.salesgenius.coSTEP 2 — THE SPRINT FUNNEL (the upsell) · aiteam.salesgenius.co · ITS OWN NETLIFY SITE

DOMAIN STATUS

aiads.salesgenius.co is LIVE. The Sprint funnel is deployed on its own Netlify project (**ai-in-house-team**) and is live right now at **ai-in-house-team.netlify.app** — it becomes **aiteam.salesgenius.co** the moment Arslan adds the custom domain + DNS CNAME. Every URL below works on the temp domain today.

Webinar funnel — aiads.salesgenius.co (folder: funnel-pages/)

LIVE URL	WHAT HAPPENS HERE	WHAT'S LEFT (OWNER)
aiads.salesgenius.co/	Registration — 'Realtor Ad Machine' masterclass opt-in. Typeform, countdown, Meta pixel	Emma/Ryan: rename/reframe decision — page must sell the webinar that teaches the 3-hire frame · weekly date config per HOW-TO doc
.../confirmation	Post-opt-in confirmation — sets expectations, add-to-calendar	SHOW-RATE PUSH (from May meeting): Matyas — email reminders w/ a hook per send + SMS layer (24h / 1h / live) · Frank — pre-frame video the night before
.../replay	Replay room for no-shows — 48h window	Azul: CTA button under the player → aiteam sales page · Matyas: no-show segment gets replay email day-of + day-after
.../checkout · /upgrade · /welcome	LEGACY — \$97 Playbook checkout, voice-caller OTO, thank-you. From the retired offer	Emma/Ryan decision: park (unlink everywhere, keep files) or retire. Nothing should link to these during the Sprint launch

Sprint funnel — aiteam.salesgenius.co (folder: aiteam-funnel/ · own Netlify site)

LIVE URL	WHAT HAPPENS HERE	WHAT'S LEFT (OWNER)
aiteam.salesgenius.co/	SALES PAGE — VSL, AI-team map, week-by-week, payroll anchor, 2 guarantees, 15-piece proof wall, FAQ. Warm traffic only: it confirms what the webinar taught	Frank: VSL embed (search VSL-EMBED) · Rebecca+Azul: application Typeform ID into config · Emma/Ryan: cohort date + seats into config
.../checkout	CHECKOUT — sticky payment card, \$150k payroll strikethrough, bonus, guarantees, what-happens-next, FAQ. Fires Meta InitiateCheckout	Rebecca: paste Stripe Payment Link (search STRIPE_PAYMENT_LINK) · Emma/Ryan: 2-pay decision
Stripe Payment Link	Hosted payment — \$2,997 USD one time. Success URL MUST be .../welcome. Webhook checkout.session.completed fires on purchase	Rebecca: product + link + receipts ON → hand link + webhook secret to Matyas
.../welcome	WEEK 0 ONBOARDING — welcome video, Step 1 intake form, Step 2 four session calendar buttons, Step 3 check-your-email. Fires CompleteRegistration	Frank: 90-sec video embed · Rebecca: intake Typeform URL + 4 calendar links (CAL_LINK_WEEK1-4) · Emma/Ryan: dates

LIVE URL	WHAT HAPPENS HERE	WHAT'S LEFT (OWNER)
(no URL — automation)	POST-PURCHASE WINDOW (May meeting push #2): buyer exits sales sequence, gets 5 onboarding emails + 3 SMS, intake nudges, session reminders	Matyas: build from emails/sprint_onboarding_sequence.md · Rebecca: community invite + tool access into the access email

HOW A BUYER ACTUALLY MOVES

Ad → **aiads.salesgenius.co/** (registers) → **/confirmation** (reminders start) → attends the **webinar** (or hits **/replay**) → pitch sends them to **aiteam.salesgenius.co/** (VSL confirms) → **/checkout** → Stripe → lands on **/welcome** (intake + calendars) → 30-day install → Conversion Pack \$2,000 seeded Wk3, closed Wk4. The 7-day email+SMS sequence and Chris's calls push everyone who didn't buy on webinar day back to the sales page until the deadline.

PART 3

Full Asset Inventory

Everything produced for this launch, and where it lives in the project folder.

CATEGORY	WHAT & WHERE
Strategy docs (read in this order)	1. AI_Team_Foundational_Positioning_Doc.pdf (SOURCE OF TRUTH) · 2. AI_EA_Sprint_Delivery_Brief.pdf (how we deliver Wks 0–4) · 3. AI_EA_Sprint_Upsell_Ascension_Plan.pdf (seeding + upsell scripts) · 4. AI_EA_Sprint_Launch_Execution_Plan.pdf (who does what)
Videos (recorded, in editing)	VSL (~12 min, \$500K map, price deliberately NOT spoken) · 90-sec welcome video. Scripts: content/vsl_script_sprint.md, content/welcome_video_script.md. Map overlays: content/vsl-map-stages/ (8 reveal PNGs + master)
Proof (15 live pieces)	11 testimonial videos (Grain, Vimeo, self-hosted) + 4 screenshots — all live on the sales page via proof-wall.js. Rules: real artifacts only, no typed quote cards
Emails & SMS	emails/sprint_sales_sequence.md — 7 emails + 4 SMS, Jeremy Haynes style, 7-day close window with real deadline day
Emails & SMS — post-purchase	emails/sprint_onboarding_sequence.md — 5 onboarding emails + 3 SMS + automation logic (Week 0 → Session 1)
Ops checklists	LAUNCH-SETUP-CHECKLIST.md — the 5-phase build order with owners · aiteam-funnel/HOW-TO-DEPLOY.md — Netlify + domain + redeploy steps
Reusable component	SG-PROOF-WALL-README.md — 2-line install of the proof wall on any funnel; maintenance guide for adding proof

PART 4

What's Left Before Launch — By Owner

These are the only open items. Everything else is done.

OWNER	OPEN ITEMS
Emma / Ryan	SET THE LAUNCH DATE (cohort start + 4 session dates — unblocks calendars, date-based emails, all [TBD] configs) · decide 2-pay option (2 × \$1,600?) · approve final VSL edit · confirm 'Clair vs Cailey' name spelling on video caption
Arslan	Netlify site is live (project 'ai-in-house-team' · ai-in-house-team.netlify.app): add custom domain aiteam.salesgenius.co + DNS CNAME (see HOW-TO-DEPLOY.md) · push local git commits to GitHub · record 60–90 sec dashboard demo ('hottest 50 leads', cropped, watermarked, Vimeo domain-locked)
Rebecca	Stripe: \$2,997 product + Payment Link + success URL aiteam.salesgenius.co/welcome.html + receipts ON → hand Payment Link + webhook to Matyas · session calendar links into welcome.html · community invite + tool access details into the access email · run-of-show + tracker
Matyas	Stripe webhook → ESP tag sprint-buyer · build post-purchase automation (emails/sprint_onboarding_sequence.md: 5 emails + 3 SMS) · buyer tag exits the sales sequence instantly · load 7-day sales sequence into ESP
Rebecca + Azul	Build Sprint application Typeform (Q1 CRM w/ waitlist branch, Q2 years, Q3 commission goal, Q4 funds) → put ID in the sales page config
Frederick	Week 2–4 SOPs (per Delivery Brief) · ad build SOP + 3 campaign templates
Chris	Daily: confirm webinar registrants + 2 qualifying Qs (CRM + deals) → tag Hot · post-webinar: book Sprint calls in the 7-day window · use foundational doc language on every call
Frank & Cesar	Finish VSL + 90-sec welcome video edits (in progress) · paste embeds into the sales page and welcome page · cut Founder's Cohort teaser for ads/reminders
Everyone	Update all [TBD] dates/config blocks in the three aiteam pages · verify Vimeo/Grain videos stay link-shareable · end-to-end test purchase before ads turn on

PART 5

Training Meeting Agenda — 60 Minutes

Goal: everyone leaves knowing the story, their lane, and their deadline.

TIME	BLOCK	WHAT HAPPENS
0:00–0:10	The story (Emma)	The pivot in 5 min: In-House AI Team, 3 employees, \$2,997, two guarantees, 10 seats. Play the 60-sec 'one-breath explainer.' Why the webinar teaches and the page confirms
0:10–0:20	The foundational doc (Emma)	Walk Sections 1–3 live: offer table, avatar + their exact words, the Before/Bridge/After/Truth narrative. Assign: everyone reads the full doc within 24h
0:20–0:30	The funnel walk (Emma/Ryan)	Click through live: registration → sales page (play 2 proof videos) → checkout → welcome. Show the proof-wall component + README
0:30–0:40	Delivery (Rebecca leads)	Weeks 0–4 from the Delivery Brief: activation events, who hosts, homework, guarantees mechanics. Where the upsell is seeded (Wk3) and closed (Wk4) — and why it's never mentioned earlier
0:40–0:50	Lanes & deadlines (Ryan)	Part 4 owner table, line by line. Each person confirms their items + dates. Sales language rules for Chris (payroll anchor, 'go on appointments')
0:50–1:00	Q&A; + commitments	Open floor. Close by locking: launch date, ad-on date, and the end-to-end test owner

PRE-READS (SEND WITH THIS DOC)

- AI_Team_Foundational_Positioning_Doc.pdf — everyone, before the meeting
- AI_EA_Sprint_Launch_Execution_Plan.pdf — everyone (find your name)
- AI_EA_Sprint_Delivery_Brief.pdf — Rebecca, Azul, Frederick
- AI_EA_Sprint_Upsell_Ascension_Plan.pdf — Ryan, Chris
- SG-PROOF-WALL-README.md — Arslan, Azul

THE OPERATING PRINCIPLE

"Emma doesn't touch ops. She sells, she teaches, she pitches. The team runs the machine." If something needs Emma that isn't selling, teaching, or pitching — first ask whether it actually needs Emma.

Prepared July 2026 · Companion to the 4 strategy docs · Questions → Emma or Ryan
