

Upsell & Ascension Plan

AI Executive Assistant Sprint — Seeding, Timing & Offer Scripts

THE CORE BELIEF — REPEAT EVERY WEEK

"Leads don't make you money. The quality and consistency of your follow-up does. If you don't have systems to communicate with leads and past clients, your business can't grow — no matter how many leads you get."

Strategic Goal

Use the 30-day Sprint to do three things:

- **Get every client to four clear outcomes:** AI executive assistant installed and used · one database reactivation email campaign sent · one AI-built ad campaign launched · one full nurture email sequence written
- **Install the belief:** "Follow-up is what makes you money, not more leads."
- **Ascend as many clients as possible** into the AI Conversion Pack (main upsell) or the Nurture Install (downsell)

From the client's perspective, **everyone in the Sprint is eligible**. Internally you still tag A/B/C so you know who to chase hardest.

The Offer Ladder

Tier	Price	What They Get
DIY	Free	They copy and paste the emails themselves and manage their own follow-up
Nurture Install	\$500	Downsell — nurture + automations installed, tested, and live in Follow Up Boss / Lofty
AI Conversion Pack	\$2,000	Main upsell — everything installed plus AI caller and AI texting on, 60-day beta with reports

Timing: No upsell talk in Weeks 1–2 (belief-building only). Introduce the concept in Week 3. Close in Week 4.

How Each Week Ties Back to the Core Belief

Week	Session	Follow-Up Tie-Back	Upsell Motion
Week 1	Executive Assistant Setup	Freeing time to follow up	None — plant the belief only
Week 2	CRM Brain + Database Reactivation	Organizing the database to know who to follow up with	Light future-pacing
Week 3	AI Ad Campaign Launch	Generating new leads that must be followed up	Introduce both upsells (concept only, no pricing)
Week 4	Nurture Sequence Build	Building the ongoing conversations that convert	Present offers + close

WEEK 1 — SEEDING

Executive Assistant Setup

Theme: Freeing time for follow-up

WHAT YOU SAY

"We're taking admin off your plate so you have more time and energy for the only thing that moves the needle: conversations with buyers and sellers."

"Today is about speed. The more the executive assistant writes, the more time you have to follow up."

No upsell mention yet. Just plant the "follow-up is the real game" belief.

WEEK 2 — SEEDING

CRM Brain + Database Reactivation

Theme: Turning the database into money

WHAT YOU SAY

"You probably have thousands of people sitting in your CRM that you haven't spoken to in months or years. That's where your next 2–3 deals are hiding."

"This one database reactivation email has created appointments and deals for agents just like you. One extra closing pays for this Sprint."

LIGHT FUTURE-PACING

"Right now, you're pressing the buttons with us. Later, we'll talk about how we can keep this running for you automatically so it never falls apart again."

WEEK 3 — INTRODUCE THE UPSELL

AI Ad Campaign Launch

Theme: Leads are now flowing; follow-up must keep up

WHAT YOU SAY

"Now you have new leads coming in from your AI ad campaign and re-engaged people from your database. If you don't follow up properly, this is just a more expensive way to stay busy."

"You do not have a lead problem. You have a worked-lead problem. That's what we're solving."

INTRODUCE THE UPSELLS — CONCEPT ONLY, NO PRICING SLIDE

"Next week, we're going to show you two ways we can help you take this all the way across the finish line:

- We can install all the nurture emails and follow-up automations into Follow Up Boss or Lofty **for you**.
- For a smaller group, we can also turn on an **AI caller** so your new leads are being called and messaged without you lifting a finger.

"You can absolutely do it yourself, but if you want us to wire it all in and handle the first contact, that's what we'll talk about in Week 4."

Why this works: they now spend a week thinking about "who's going to actually do all this follow-up?"

WEEK 4 — CLOSE THE UPSELL

Nurture Sequence Build

Theme: Who will keep the follow-up engine running?

START WITH THE RECAP

"In 30 days, you've:"

- Installed an AI executive assistant
- Connected it to your CRM and sent a database reactivation email
- Launched an AI-built ad campaign
- Written a full nurture sequence for your new leads

SET UP THE FORK IN THE ROAD

"You now have everything you need. You can absolutely copy and paste these emails yourself and manage the follow-up on your own..."

"Or, if you want our team to finish the job and keep the follow-up humming, here's how we can do that."

MAIN UPSELL

AI Conversion Pack

\$2,000 one-time · 60-day Beta · offered to everyone

"For those of you who want us to make sure nothing falls through the cracks:"

- We will **install your nurture sequence and database reactivation emails** into Follow Up Boss or Lofty for you.
- We will **build and test the automations** so new leads and re-engaged contacts go into the right follow-up.
- We will **turn on the AI caller and AI text messaging** for your new ad campaign leads and people who raise their hands from your database reactivation email.
- For the next **60 days**, the AI caller and text system will be running for you, and we'll send you **simple reports** on contacts and conversations.

"One extra closing in 60 days more than covers this for most of you."

Everyone in the cohort hears this offer. Internally, only accept as many as you can safely deliver (**3–5 for the first beta**).

DOWNSELL**Nurture Install Only**

\$500 · for those who balk at the AI caller but want help

"If you're not ready for the AI caller yet, but you do want everything installed and live inside Follow Up Boss or Lofty, we can do just the nurture and automation setup for \$500. We'll."

- Install your nurture sequence and database reactivation templates
- Build the workflows and triggers
- Test that it's all working

"You keep full control of the follow-up, but you don't have to do the technical setup."

Internal Notes**ELIGIBILITY & TARGETING**

- From an external point of view: **no one is "disqualified"** from these upsells — they're offered to the entire cohort.
- Internally: **tag A/B/C** so sales / DMs focus on the highest-value clients for the AI Conversion Pack.
- **Respect capacity:** you may close 8 Sprints but only accept 3–5 into the AI Conversion Pack this first round.

THE THROUGH-LINE

Keep repeating that **follow-up is the bottleneck** and that the Sprint solved the **strategy** while the upsells solve the **execution**. That's how you make \$3k feel like a steal and \$2k on top feel like the obvious next move.

Companion document: **Document 1 — 30-Day AI Executive Assistant Sprint, Internal Delivery Brief** (week-by-week delivery plan).
